- TOEFL iBT 102/120
- Goethe Institut Zertifikat B1

## LANGUAGES

- Serbian (Native speaker)
- English (C1)
- German (B1)
- Hungarian
- Rusyn

## PROFILE

A proactive, meticulous, devoted, and hard-working individual with training and experience in chemistry who is committed to seeing outcomes. Almost every industry has a high demand for digitalization, automation, and optimization, which drew my interest to learn new technologies, expand my skill set, explore programming, and ultimately make the risky decision to change my career. I invested a lot of time in my training this year, taking various courses and locating experienced developers to serve as mentors and assist me in achieving my objective.

## EMPLOYMENT HISTORY

- **Junior Research Assistant at BioSense Institute, Novi Sad, Serbia**

June 2018 - December 2021

Research and development of novel nanomaterials for applications in bio-sensing, agriculture, healthcare, and environmental protection. Taking part in both national and international projects, Co-authored several academic articles.

- **Assistant Editor at MDPI, Belgrade, Serbia**

November 2017 - February 2018

Editorial work for journals in the domain of chemistry, organizing the review process for manuscripts, overseeing editorial decisions, and communication handling between parties involved in the publication process.
